- **H. R. Patel Kanya Madhyamik Vidyalaya School, Shirpur**   Jul '13 - Jun '19
  10th (SSC), (Percentage: 81.00%)

PROJECTS

ServUrban - The Professional Service Provider

- ServUrban is a professional service platform built with Spring Framework, Hibernate, MySQL, and MVC, bridging the gap between service providers and seekers.
- It enables users to locate and compare nearby services like painters, plumbers, and household services, with an easy price comparison feature.
- The application addresses the common challenge of finding reliable service providers in urban areas.

Inventory Management System

- Developed Web Applications using Java Servlets, JSP, and MYSQL for the back end, and HTML, CSS, and JavaScript for the front end.
- It includes features for adding, updating, and deleting inventory items, as well as managing suppliers, categories, and transactions.
- The applications ensure data security through authentication and authorization mechanisms and provide a user-friendly interface for efficient inventory management.

ACHIEVEMENTS

- Cyber Security Poster Presentation Competition - 2nd Price   Feb '24
- Smart India Hackathon 2022 - Level 2   Mar '22

SKILLS

- Programming Languages - C, Java
